In view of the amendment and remarks filed on June 27, 2007, Applicant has amended the claim in such a way that it is now directed to a method of producing a printed wiring board.

Election/Restrictions

1. Newly submitted claim 10 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: a specific group of board material coupled with a series of surface roughening treatments on these specific board materials are required for patentability consideration.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 10 is withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. A one month shortened statutory period for replying to the above restriction is granted. Applicant is urged to amend the claim in order to advance the examination.
